Single IDC RJ45 Module

Cat 5e

This Single IDC RJ45 Module allows you to add a single Cat 5e network port to a wall or surface point.

Supplied with a removable label field section and an additional label area for use of further self adhesive labelling.

FEATURES

- Cat 5e RJ45 shuttered module
- Complies with the EIA TIA Standard for Category 5e
- Termination can be made using an IDC tool
- A cable tie area is positioned between the IDC blocks allowing you to fix the cable into position to prevent movement and relieve cable stress

SPECIFICATIONS

- Dimensions: 25 x 50mm
- Colour: White
